

OFFER TO MANUFACTURER

n-Trance Security Ltd would like to offer your highly respected company a mutually profitable cooperation, relating to a bundle of n-Trance Security software suit with your company's hardware.

In the market of consumer devices, which is known for its extremely intensive competition, every additional feature can become a valuable point for decision in a favor of your products. n-Trance, a world leader in the development of portable solutions and comprehensive software suits for security-oriented markets, can add a real value to your company's products proposition. This can deliver a win-win situation for both of our companies.

The offer:

n-Trance will provide your company with unlimited free license for copying and redistribution of the n-Pass2Go™ software application. This application will be operated by the end-user with a complete functionality for the period of 30 days, with slightly limited functionality for the period of another 30 days and afterwards will remain in a basic functionality. In case that user is willing to continue operating the complete functionality of the application, he will have to pay the software license according to the following price list:

n-Pass2Go™ Professional	29.90€ per end-user license
n-Pass2Go™ Classic	19.90€ per end-user license

Your company will be granted the right to *receive 30%* of this purchase with no condition.

Obligations

n-Trance Security Ltd provides your company with files for installation of the n-Pass2Go™ to your products.

n-Trance will make all necessary changes to installation files in order to place the vendor ID, which will be granted to your company.

In addition, it will provide you with a private area at its website and necessary credentials for access. This will be used for downloads of the latest version of the application, messaging and audit of purchases.

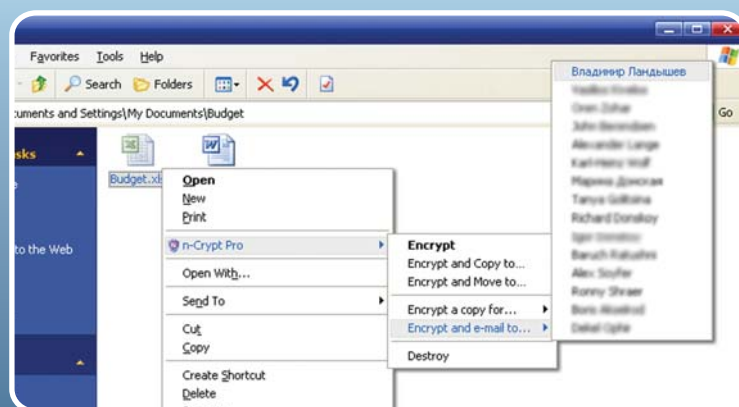

Your company will install the n-Pass2Go™ on every manufactured USB and/or SD and/or any other manufactured media for free.

n-Trance Security Ltd will pay your company 30% of every software purchase made by your customers at our website of Professional and Classic versions (8.97€ and 5.97€ respectively)

Your company shall operate in good faith in order to promote the n-Pass2Go™ application. It shall offer this solution to every of its clients, should it be an end-user, a reseller, a distributor, an OEM or ODM customer.

Advantage

Our suggestion can boost your sales from one hand, providing an added value to your hardware, and allow a passive income from another hand. The more devices with n-Pass2Go™ you sell, the higher is your profit.

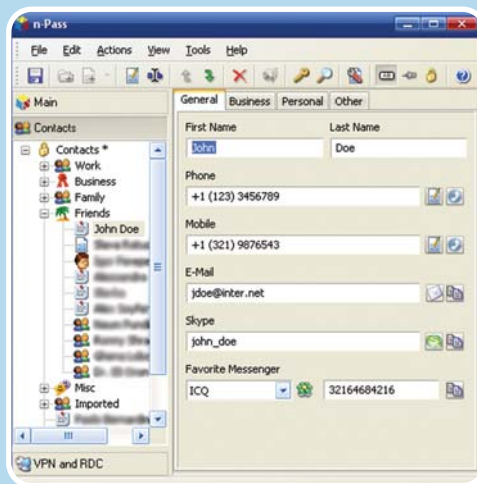

OFFER TO MANUFACTURER

About n-Pass2Go™

n-Pass2Go™ is a powerful, feature-rich solution for storing all your password and web forms information in a secure database on your USB flash drive. It uses industrial strength encryption to keep your data secure, while providing an easy-to-use interface for organizing, adding and editing your password and web forms records as well as VPN and RDC credentials and settings. It is the most convenient and comprehensive password and personal data management software package in the market today.

An additional feature, provided by n-Pass2Go™ is a cryptographic tool, n-Crypt, allowing encryption of files, folders, disks and partitions in a fast and easy way. The user is not required to remember passwords, which is usually one of the main problems of security-devoted applications. The protection granted by the software is superior and crucial.

About n-Trance Security Ltd

Creating a Safe & Comfortable Digital World for People 'On the Go'

We enable mobile users to safely carry their portable applications & data in a pocket size device and use them instantly on any PC without leaving a trace

n-Trance answers an urgent need of mobile users for safety and comfort by enabling them to carry their 'Digital World', personal Data & applications in a biometrically protected pocket size device. This 'All-in-One Portable Digital World™' can't be compromised even when the device is lost or stolen. Users can securely access their personal environment with a 'Flick of a Finger' for communication, entertainment and computing on any Internet-connected PC, without any fear of leaving their valuable information behind. Thus, n-Trance frees mobile users from the need to be continuously 'chained' to their laptops!

The Company initially targets the communication services, corporate and consumer retail markets through a B-to-B sales strategy
